The Board in its discretion may from time to time, if the capacity of the District's facilities permit, make additional Benefit Units available. Subscriptions for Benefit Units shall be given preference and priority in order in which received. The Board may refuse the subscription for a Benefit Unit in favor of a particular tract of land located within the District, or impose special conditions on granting the same if in the judgment of the Board, the granting of

said subscription and the furnish of water services pursuant thereto would impair the service to other users in the locality or be uneconomical, unfeasible, or place an undue burden on the District. Benefit Unit Certificates shall be issued by the Board, signed by the Chairman and Secretary, showing name of owner, and tract of land to which the Benefit Unit is assigned, numbered consecutively in the order in which issued.

Section 3 - The cost of Benefit Unit shall be determined by the Board. The consideration paid for Benefit Units shall be considered donations to the District and shall in no event and under no circumstance be refunded to the subscriber.

Provided, further, that the Board may permit such reinstatement within six months after such failure upon payment of all back charges, plus 10 percent interest, and

reasonable labor charges necessary to effect such reconnection: Provided, further, that if the defaulting subscriber is a tenant, the time set out above shall not commence to run until the Secretary of the District has mailed or cause to be mailed, by registered or certified mail notice of such default of the tenant to the participating member at his/her last known address as shown on the books of the District.

RURAL WATER DISTRICT 13, CHEROKEE COUNTY RULES AND REGULATIONS

These rules are designed to govern the supplying and taking of water in a uniform manner for the benefit of the District and its members. They are subject to change from time to time. If any portion of these rules shall be declared invalid by competent authority, such voidance shall not affect the validity of the remaining portions.

Definitions: The following expression when used herein will have the meaning stated below.

District: Rural Water District 13

Applicant: Any individual, firm, partnership, business, corporation, authority or other agency owning land located within the service area applying for a benefit unit and water service.

Benefit Unit Certificate: A membership right entitling a land holder to one water service connection.

Board: The Board of Directors of this water district.

Member: Any individual, firm, partnership, association, business, corporation, authority or other agency who has acquired one or more benefit units and receives water service from the District's facilities. A member's tenant may become a user of water service with the consent of the member.

Point of Delivery: In rural areas, water lines will be installed parallel to section lines and highways and on private property, where possible. Service lines to meter will not extend across private property unless necessary to serve members whose property does not join the section lines or road.

Water will be delivered at the meter which will be located approximately five feet inside the member's property line. However, if the cost to serve the last member or members on any line segment exceeds the average cost per member of the entire system, the last member or members will be required to pay all costs which exceed the average cost per member of the entire system.

Service: The term service when used in connection with the supplying of water shall mean the availability for use by the members of water adequate to meet their requirements. Service shall be considered as available when the District maintains the water supply at normal

pressure at the point of delivery, in readiness for the member, regardless of whether or not the member makes use of it.

Member Agreement: The agreement or contract between the member and the District, pursuant to which water service is supplied and accepted.

Water Service: Water service shall consist of the facilities for supplying water to a member's residence or business.

GERNERAL RULES

1. The supplying and taking of water will be in conformance with these rules and the applicable rate schedule attached hereto, provided, that such rate schedule is subject to change by action of the Board. Provided further, that if at any time the Board determines the total amount derived from the collection of water charges is insufficient for the payment of operating costs, emergency repairs, and debt service, the Board shall increase the minimum water rate for the first month thereafter in an amount sufficient to pay such operating costs, emergency repairs, and debt service.
2. Applicants for service shall make application to the Secretary of the District. If the application for service is approved by the Board, the applicant pays the required costs and signs the standard application for water, he shall receive service.
3. Before installing a service extension and providing water available for use, the Board will require the applicant to provide piping to the point of delivery and be in readiness to accept service. All applicants shall be required to grant easements over their property to allow the District to maintain, service, and repair its lines and meters to the point of delivery.

Service is for Sole Use of the Member: A standard water service connection is for the sole use of the applicant or the member, and does not permit the extension of pipes to transfer water from one property to another, nor to share, resell, or sub-meter water to any other. If an emergency or specific situation should make such an arrangement advisable, it shall be done only on specific written permission of the Board for the duration of the emergency.

Mobile Home Parks:

- (a) Multiple line extensions: The classification, method of service, and minimum charge to be assessed each mobile home resident, whether located in a mobile home park or located on an individual lot, will be the same as for any other residential member on the system. Normally, this would be accomplished by installing a water meter at each mobile home. The Board may elect to serve mobile homes located in a mobile home park through a master meter, provided the owner of the mobile home park agrees in writing that he will be responsible for collecting the minimum water bill each month for each mobile home, which is connected to a line to receive water, plus water used through the master meter in accordance with the rate schedule used by other residential members. If necessary, owners of mobile home parks serving non-members will be expected to contribute an amount equal to the cost of enlarging the District's water system as required to serve the mobile homes. The mobile home park owners must also pay for constructing, maintaining, and servicing their own lines within the mobile home park.

- (b) **Subdivisions and Developers:** Developers are expected to pay for essential utilities to new or developing areas, including subdivisions. Owners of subdivisions or developments will be expected to contribute an amount equal to the cost of enlarging the District's water system to serve the area being developed. The owner must also pay for constructing their own lines within the development or subdivision. If the District's consulting engineer and Board of Directors determines that the owner has installed service and main lines within the subdivision or development in accordance with approved plans and specifications, the District may agree to accept ownership and overall operation and maintains responsibility of the service lines within the subdivision or development. The Developers will supply the District with all necessary easements throughout the subdivision.
 - i. Developers will be required to file their Platted Subdivision with the County Clerk's Office prior to installation of any service lines in or to the subdivision.

Agreements with Governmental and Public Bodies: The District through its Board may take specific water contracts with the Federal Government, the State of Oklahoma, or agencies thereof, school districts, municipal corporations, nonprofit corporations, and fire departments differing from stipulations set out in rate schedule and rules.

Right to Access: Representatives of the District, shall have the right at all reasonable hours to enter upon member's premises to read and test meters, inspect piping and to perform other duties for the proper maintenance and operation of service, or to remove its meter and equipment upon discontinuance of service by members.

Continuity of Service: The District will make all reasonable efforts to supply continuous, uninterrupted service. However, it shall have the right to interrupt service for the purpose of making repairs, connections, extensions, or for other necessary work. Efforts will be made to notify members who may be affected by such interruptions, but the District will not accept responsibility for losses that might occur due to such necessary interruptions.

The District does not accept responsibility for losses which might occur due to interruptions to service caused by storms, strikes, floods, or other causes beyond its control.

Meters: Meters will be furnished, installed, owned, inspected, tested and kept in proper operating condition by the District without cost to the member. A complete record of tests and histories of meters will be kept. Meter tests will be made according to methods of the American Waterworks Association by the District as often as deemed necessary by its Board.

Meter Accuracy: Service meters whose errors do not exceed two percent (2%) fast or slow shall be considered as being within the allowable limits accuracy for billing purposes. The percentage of error will be considered as that arrived at by taking the average of the error at full load and that at ten percent (10%) load, unless a member's rate of usage is known to be practically constant in which case the error at such constant use will be used.

Bills: The Bylaws of the Water District state as follows:

“Failure to pay the minimum monthly meter charge and/or failure to pay for water used through any meter shall constitute a forfeiture of the Benefit Unit on behalf of which such failure occurs and such meter may be disconnected”

Bylaws, Article 6, Section 6, Page 3

AMENDED BY VOTE OF MEMBERS AT ANNUAL MEETING

APRIL 22, 2006

For the purpose of implementing this Bylaw, the following rules on

water bills shall apply to all members of the Water District:

1. A monthly bill for water service will be sent by mail so the member will receive it on or about the 5th day of the month following that in which the water services were provided.
2. Payment of the bill in full is due on or before the 15th day of month in which the bill is received - the “*due date*”.
3. Failure to pay the bill in full by the due date will result in 10% late charge. There will be a \$25.00 service charge for any returned check.
4. If past due bill and assessed late charges are not paid in full within 30 days of the due date, the Board of Directors, at their next regular meeting, shall acknowledge the forfeiture of the member’s Benefit Unit and direct the disconnection of the member’s water service if the past due bill and late charges have not been paid in full.
5. If the Board of Directors acknowledges the forfeiture of a member’s Benefit Unit and orders the disconnection of water service for the nonpayment of a past due bill pursuant to paragraph 4 above, a member may have their Benefit Unit and water service reinstated if all past due amounts, late charges, and a reasonable fee for the labor necessary to make the reconnection are paid within three months of the original due date of the past due bill.

Reconnection Charge: The reconnection charge for restoration of service, if reconnection is authorized and approved under the provisions of the Bylaws of the District after each suspension of service because of delinquent payment or for other infraction of these rules shall be the unpaid amount charged to date against the member’s membership plus a \$75.00 reconnect fee.

Requested Meter Tests: Tests requested by members will be performed without cost to the member, if the meter is found to be in excess of two percent (2%) fast. Otherwise, the member for whom the requested test was made will be charged for the cost of making the test.

Member’s Responsibility: The member shall be responsible for any damage to the meter installed for his/her service, on account of any cause other than normal wear and tear.

Change of Occupancy: It shall be the member’s responsibility to anticipate changes of occupancy, and to have his/her benefit unit

certificate transferred to the new member as prescribed in the Bylaws. A benefit can only be transferred when the land to which it applies to is sold or transferred, and can only be transferred to the purchaser or new owner of that land. Until the certificate is formally transferred, the original holder shall be responsible for payment for service. The Board may refuse to transfer membership until all back bills have been paid. However, this would not preclude a new owner from purchasing a new membership in the District.

Main Extensions:

1. In extending a water main to serve an applicant, the Board may at its discretion exercise one of the following options:
 - (a) If the cost of the extension is less than the average cost of the entire system to each member, and sufficient construction funds are available, the Board may elect to make the extension upon the applicant's purchase of a membership or payment of the required fee.
 - (b) If the cost of the extension is greater than the average cost of the entire system to each member, but funds are available to the extent of such average cost, the Board may elect to contribute to the extension in the amount of such average cost, and require the applicant to deposit in cash the additional cost in addition to the price of the membership. If, and as additional members are connected to the extension, and as funds become available, all or part of the original member's deposit remaining after the expiration of a five-year period will become the property of the District. In no case will interest be paid on such deposits.
 - (c) In the event that the District does not have funds available to pay for construction in the amount of the average cost per member of the entire system, it may require as a condition of extending service, that the applicant deposit in addition to the price of a membership, an amount which may equal the entire cost of the extension. In such event the Board may, as funds become available, return to the member that portion of his deposit equal to the average cost of the system per member. No interest will be paid on such deposit.
2. However, the Board shall not issue any bonds, notes, indenture, obligations, or other form of indebtedness in connection with the extension of lines hereunder, or mortgage or encumber the system in any manner.

Service: The District will install all water service pipes (except for private fire protection) from its main to the meters. The service pipe shall not be less than three-fourths inch in size. The District will also install the District meter and meter box. The member will be responsible for the cost and maintenance of all piping from the dwelling to the point of delivery at the meter.

Applicants Having Excessive Requirements: In the event an applicant whose water requirements are found to exceed the District's ability to supply it from existing plant without adversely affecting service to other members to a reasonable extent, the District will not be obligated to render such service, unless an until suitable self-liquidating financing is arranged to cover necessary investment in additional plant.

Cross Connections: There shall be no cross connections made or maintained between the water system of the District or may other system (private or otherwise). All new structures constructed within the District shall, prior to service connections, comply with the plumbing standards of the State of Oklahoma, and provide health department certification approving the sewage or septic system on the property.

Representatives of the District, the State, and local Health Department shall have the right at all reasonable hours to enter upon member's premises for the purpose of inspection and enforcement of this provision.

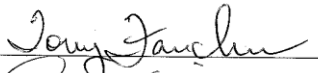

Violation of this provision shall constitute immediate cause for disconnection of a member's service and forfeiture of membership.

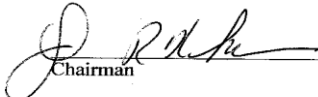

Unanimously adopted at a meeting of the Board of Director's, held November 18, 2004 at Plant Office, with five (5) members of the Board present.
